

SHAPED BY THE ELEMENTS

The distinctive new Mazda5 looks unlike anything else. But the elegant shape curving around that spacious, versatile, family-friendly interior is no mere styling exercise. With athletic poise, Mazda5 cuts through the air with minimal resistance, using less fuel and keeping wind noise down to barely a whisper for those inside. When this aerodynamic efficiency is combined with our latest-generation engines, it results in CO₂ emissions as low as 138g/km*. All of which proves that working with the elements can improve your driving experience, reduce your fuel bills and help protect the environment.

Designed to be different

The new Mazda5 stands out in the crowd. With its distinct design language – Nagare Flow – natural wave lines suggestive of air or water flowing over the car's exterior, transform its appearance as they do so.

FORMED BY FUNCTION

It is clear from the moment you slide into the driver's seat, that the new Mazda5 has been designed with craftsmanship and functionality foremost in our minds. You can see subtle hints of the Nagare Flow within the driver environment. Instrumentation is positioned where it is clearly visible without having to divert your eyes from the road ahead. For safety and convenience, key features such as the audio and Bluetooth® hands-free system* can be operated from the steering wheel mounted controls. And all essential controls and storage are comfortably within reach and easy to use, with key functionalities highlighted with premium finish, chrome accents.

EASIER BY FAR

Whether it's for an outdoor adventure with your friends or a family beach party, Mazda5 helps you get the fun started sooner. Load and offload the kids, the dog and all your stuff with the minimum of fuss thanks to the large, 700mm wide-opening sliding rear doors and generous cargo space. And for even greater convenience, Sports models have power sliding rear doors with safety touch sensors, so they won't close on anything they shouldn't.

- 1 Remote key fob for power sliding rear doors**
Just one press for even easier access – just the thing for when you're herding kids into the car after a long day at the theme park!
- 2 Auxiliary jack and power outlet**
Keeping you connected and charged.
- 3 Centre storage**
Within reach when you're on the move.
- 4 Second-row storage**
Extra storage and cup holders, perfect for those in the back.
- 5 Underseat storage**
Out of sight and easy to get to.
- 6 Boot underfloor storage**
Your valuables safe from prying eyes.

TRANSFORMED BY YOU

Wouldn't it be great if your car's interior adjusted to fit you, rather than the other way around? That's the thinking behind Mazda5's clever Karakuri seat-folding system. Karakuri is unique: it lets you choose from numerous different seating configurations. It's also easy to use, letting you transform your Mazda5 from family transport into a spacious load-carrier in seconds – and then back again equally quickly.

Innovation mode

The Karakuri seating system adapts to your differing needs and those of your passengers and cargo, combined with the sliding rear doors to make Mazda5 quick and easy to load and unload.

Above: 7-seater mode

The 2-3-2 seating configuration provides maximum passenger capacity.

1 6-seater walk-through

For easier entry and exit for third row passengers, the second-row centre seat quickly folds away.

2 5-seater mode

Increase your rear luggage space by folding down the 50/50 split third-row seats.

3 2-seater mode

All rear seats easily fold into the floor for maximum cargo room – without the need to remove them.

4 2-seater mode

Flat load area.

ENJOYED BY EVERYONE

New Mazda5 incorporates responsive and dynamic handling, coupled with all the grace and virtue of a luxury vehicle. Mazda5 adapts to the needs of everyone, the throttle delivers perfect linear acceleration, whilst the rear seats not only accommodate five adults with ease, it also provides best-in-class rear leg room. The chassis manages to compensate for rapid changes in direction and absorbs imperfections in the road – which delivers a smooth comfortable ride.

Electro-Hydraulic Power Assisted Steering (EHPAS)

With EHPAS, the required steering effort is proportional to the speed you are travelling. Minimal effort is needed at low speeds, while at higher speeds the steering has less assistance, making it firmer and, therefore, very precise, while also enhancing the feeling of stability. As an additional bonus, EHPAS also reduces emissions and improves fuel efficiency.

ECONOMY BY INGENUITY

Don't you just hate spending money when you really shouldn't have to? With Mazda5's new 2.0i DISI i-stop engine unnecessary expense will be a thing of the past. When at traffic lights or stuck in a traffic jam the Mazda5's i-stop engine uses no fuel whatsoever. Using the ingenious i-stop engine, which automatically switches off when you are stationary* and instantly starts the engine the moment you step on the clutch pedal. It's that simple.

i-stop

Mazda's i-stop system is unique. It uses our advanced 'combustion start method' rather than relying on the starter motor, as is the case with conventional stop-start systems. This next-generation Mazda technology makes i-stop smoother and, with a restart time of just 0.35 seconds, faster than any other comparable stop-start system.

*Before i-stop switches off the engine, the smart system confirms whether there's a good reason to keep it running. The engine will not stop if occupants comfort or safety is compromised.

DRIVEN BY THE ENVIRONMENT

At Mazda, we believe that the development of cleaner, greener vehicles shouldn't ever compromise driveability. So, whilst the new Mazda5 certainly has a healthy aversion to the pumps and meets the latest Euro Stage V emissions standard. We've also ensured that its engines are supremely smooth, with linear responses to driver inputs. This results in a smoother, more comfortable drive which is an environmentally-friendly choice you can be proud of – and you can really enjoy on the open road.

2.0 MZR DISI i-stop

Mazda5's 2.0-litre petrol engine uses advanced DISI (Direct Injection Spark Ignition) technology that injects atomised fuel directly into the cylinder, allowing a higher than usual compression ratio. This results in a smooth and flexible delivery of power and torque – with fuel economy of up to 40.9mpg and CO₂ emissions of only 159g/km.

6-speed manual transmission

A 6-speed manual transmission is now standard on all Mazda5 models. The extra available ratio in a 6-speed contributes to reduced fuel consumption, lower emissions and increased refinement at higher speeds.

1.6 MZ-CD diesel*

Features a compact turbocharger and multi-point injection for better acceleration, increased torque at lower revs, better fuel economy with up to 54.3mpg and CO₂ emissions as low as 138g/km.

Shift indicator light

A shift indicator light in the fascia illuminates at the optimum revs for changing gears to encourage a smoother and more economical driving style (2.0 MZR DISI i-stop only).

PROTECTED BY TECHNOLOGY

Prevention is better than cure. New Mazda5's safety technology can help prevent an accident and minimise the consequences if one is unavoidable. For example, the Emergency Stop Signalling system (ESS) warns following drivers of a sudden braking manoeuvre so they have more time to stop. Touch sensors in the power sliding rear doors protect fingers as the doors close. The tyre pressure monitoring system warns if any of your tyres drop below optimum pressure levels. In the event of a collision, Mazda5's occupant safety cell and Supplementary Restraint System (SRS) combine to offer excellent protection for those inside, while an energy-absorbing structure in the bonnet and front bumper helps reduce the potential for pedestrian injury.

Dynamic Stability Control (DSC)

DSC enhances stability in critical driving situations regardless of the road surface the car is driven on. The system, working in conjunction with ABS, reduces engine power when necessary and carefully regulates braking pressure on the individual wheel, ensuring that the car can get round corners or around obstacles without either oversteering or understeering – still maintaining maximum traction and stability. TCS (Traction Control System) makes sure the wheels do not spin on loose surfaces, by regulating the torque of the engine.

DSC effect (Oversteer control)

DSC effect (Understeer control)

Anti-lock Braking System (ABS)

ABS works with Electronic Brake-force Distribution (EBD) and Emergency Brake Assist (EBA) to optimise braking performance, helping you to maintain steering control in wet or snowy conditions.

Emergency Brake Assist (EBA)

EBA monitors how hard and how quickly you step on the brake pedal to determine when you are in an emergency braking situation. In these critical instances, EBA automatically applies the maximum braking force to every wheel to reduce stopping distances.

High-tensile steel bodyshell

In addition to providing a strong occupant safety cell, the use of high-tensile steel in the bodyshell saves weight and provides the solid base on to which we attach the chassis and steering that make Mazda5 so rewarding to drive.

Airbags

Mazda5 features dual front airbags, front-row side airbags and curtain airbags for all three rows.

ISOFIX system

The ISOFIX system provides secure anchorage points for child seats. You can quickly attach an ISOFIX seat to ISOFIX anchorages with a simple push-fitting. These anchorages and seat fittings are in a standard location, so any ISOFIX seat can be fitted to any car with the ISOFIX system.

Parking distance sensors

When you are manoeuvring into a parking space, front and rear sensors detect an obstacle in your way, and alert you with a warning buzzer.

CHOOSE YOURS

As you might expect from a car that gives you so many options when it comes to how you use it, Mazda5 comes with a great choice of three distinct trim levels.

Mazda5 TS

Key features:

- 16" alloy wheels
- Body-coloured bumpers
- Front and rear electric windows
- Cruise control
- Power-operated and heated door mirrors
- Manual air-conditioning
- Second-row seat recliner adjustment and double-fold mechanism
- Steering wheel-mounted remote audio controls
- Second-row sliding seats with foldable Karakuri centre seat
- CD audio unit with AM/FM radio, six speakers, MP3 / WMA-compatibility and auxiliary (AUX) input jack
- Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD) and Emergency Brake Assistance (EBA)
- Three ISOFIX child seat anchorages (second-row seats only)
- Dynamic Stability Control (DSC) with Traction Control System (TCS) and Emergency Stop Signal system (ESS)
- Dual front and side airbags
- Front and rear curtain airbags

Mazda5 TS²

In addition to TS:

- Privacy glass for rear windows
- Rear parking sensors
- Automatic climate control air-conditioning
- Bluetooth® hands-free kit with voice control
- Automatic rain-sensing wipers
- Trip computer
- Dusk-sensing auto headlights

Mazda5 SPORT

In addition to TS²:

- 17" alloy wheels
- Rear spoiler
- Body-coloured side skirts
- Dark Silver front grille
- Power sliding rear doors
- Leather seat trim
- Heated front seats
- Front fog lights
- Tyre pressure monitoring system

MAKE IT YOURS

Choosing the new Mazda5 demonstrates that you are an individual. Whether you're planning some early morning windsurfing or need to do the daily school run, the wide range of Mazda accessories is an opportunity to make your Mazda5 individual to your needs. Accessories vary from those that transform its appearance, both inside and out, to those that enhance its versatility and functionality. Please ask your dealer for further details.

Carbon front grille in silver carbon look.

Illuminated scuff plates.

Tailgate handle garnish.

Rear bumper step plate.

Rear roof spoiler.

Chrome exhaust trim.

MAKE IT YOURS

Mazda5's alloy wheels complement the Nagare Flow theme beautifully. In line with our weight-minimising 'gram strategy', they also combine strength with extremely light-weight, and, as a result of our obsessive attention to every detail, they have even been shaped specifically to reduce build-up of brake dust.

- 1 16" 10-spoke alloy wheel (Accessory)
- 2 16" 5x2-spoke alloy wheel (TS / TS² / Accessory)
- 3 17" 5x2-spoke alloy wheel (Sport / Accessory)

MAKE IT YOURS

- 1 Pioneer F320BT
- 2 Garmin 765TFM
- 3 iPod / iPhone adaptor
- 4 Bluetooth® hands-free kit
- 5 Armrest

- 6 Sunblinds
- 7 Trunk liner
- 8 Trunk light
- 9 Dog guard
- 10 Tow bar

- 11 Roof carrier
- 12 Interior bike carrier

MAZDA FINANCIAL SERVICES

Who are we?

Mazda Financial Services is a division of Santander Consumer, the leading Consumer Finance House in Europe. We provide finance for your Mazda vehicle through your Mazda dealer at competitive rates and insurance products. We are one of the UK's leading 'point of sale' finance providers, which means we enable your Mazda dealer to provide you with a convenient "One-Stop Shop" when choosing your next Mazda. From our wide range of finance plans, there's an option that's right for you, whether you are thinking of a new or used Mazda.

What you can expect from Mazda Financial Services:

- Face-to-face service from trained, plain-talking people at your local Mazda dealer.
- Assistance in renewing your car. We'll help you choose the right finance package to enable you to renew your Mazda car as often as you like.
- Fixed Interest Rates. The interest rate on your loan is fixed for the duration of the agreement.
- Flexible terms tailored to your motoring needs. As specialists in Mazda vehicles we can tailor a finance package to both your budget and your motoring / ownership needs.

Please ask your sales executive for a tailor-made finance quote for your new car.

Mazda Financial Services Finance Plans:

Mazda Conditional Sale:

The traditional way of buying your car. Mazda Conditional Sale is flexible and simple, with a range of options to suit everyone.

The benefits

- Simple – fixed, equal, regular instalments.
- Predictable – pay all your instalments and you own the car.
- Flexible – you determine your repayment period at the start of your contract, meaning that you have total control of your budget.

How it works

1. Choose your Mazda. Tell your dealer the deposit and repayment period you want, from 12-60 months.
2. Agree your repayments. These are based on how much is left to pay, plus interest where applicable.
3. Drive away the moment we activate your agreement.

At the end of your contract, when all instalments have been made, the car is yours. You now have two choices:

- **Renew:** Choose another Mazda. The car is yours; you can part exchange it for another Mazda and use the value as your deposit.
- **Retain:** Keep the car. The car is yours once all instalments have been made.

Mazda Personal Contract Purchase:

The finance plan that helps you to change your Mazda car at more regular intervals. Enabling shorter term finance agreements, meaning a new car more often.

The benefits

- You can fund your car over shorter periods, so you get the chance to change more often.
- The flexibility at the end of the agreement to choose to renew, retain or return your Mazda.
- You're protected against any fall in used car prices by a Guaranteed Future Value (GFV).

How it works

1. Choose any new or used Mazda. Estimate your annual mileage.
2. We estimate the minimum amount your car will be worth once your contract finishes – the GFV.
3. To work out your regular payments we add any interest charges and deduct your deposit plus the GFV from the price of your new Mazda.
4. Drive away the moment we activate your agreement.

At the end of your contract, when all instalments have been made, you now have three choices.

- **Renew:** Choose another Mazda. Use any excess value above the GFV towards a deposit for another Mazda. You can trade in your car at any time or sell it privately having settled your account.
- **Retain:** Keep the car. Simply pay the GFV, and the car is yours.
- **Return your car:** There's nothing more to pay if the car's in good condition and within the agreed mileage.

OUR COMMITMENT TO THE ENVIRONMENT

Mazda makes cars that excite, look stylish and appealing, are fun to drive and make you want to get behind the wheel again and again. But we are equally committed to the environment, to the creation of a sustainable future for all. This means limiting the Earth's resources that we use and always considering the environmental impact in everything we do.

Our sustainability programme is dedicated to the development of clean technologies. This covers every aspect of a vehicle's impact on the environment – from planning and development, through to manufacturing, use and eventual recycling / disposal. Below are just three examples of how our environmental policies have led to significant advances in 'green' technology.

Plant-derived plastics

Our interior car plastics use carbon-neutral* plant-derived biomass – an industry first.

- Reduces reliance on fossil fuels
- Cuts CO₂ emissions
- Uses sustainable raw materials
- Requires 30% less energy to produce than petroleum based plastics
- Is three times stronger than conventional bioplastics
- Has 25% higher heat resistance than conventional bioplastics
- Produces lighter, stronger parts improving fuel economy

*CO₂ released when the bioplastic decomposes or is burned is comparable to the amount absorbed by growing plants, having a negligible impact on total atmospheric CO₂ levels.

Semi-dry machining process

Conventional machining of cast metal parts uses huge amounts of water-based coolant to cool and lubricate cutting tools, and remove and collect waste metal. With Mazda's semi-dry machining process, we have substituted large volumes of coolant for tiny quantities of atomised biodegradable oil in a jet of air.

Benefits:

- 84% reduction in the amount of coolant required
- Reduced electricity consumption by 40% on machining lines
- 80% cut in waste liquids

Recycling

Mazda has made a substantial commitment to recycling.

- We have reduced waste material in our production facilities by 55% since 1990
- In 1992 we became the first car manufacturer to recycle bumpers
- Over 75% of our plastic parts can be recycled
- All of gaskets and brake-pads are asbestos-free
- There are no ozone-damaging CFCs in our polyurethane products (such as the foam padding in seats, armrests and steering wheels)
- Many of our plants have passed the stringent ISO 14001 test – commonly known as the environmental ISO

MECHANICAL FEATURES

Engines:

- 1.8 MZR Petrol
- 1798cc in-line 4-cylinder, 16-valve, DOHC, front-mounted, developing 115ps (85kW) at 5300rpm and 165Nm at 4000rpm.
 - CO₂ emissions of 168g/km (EC Stage V).
 - Battery – 50D20L.
 - Alternator – 12V-90A.
- 2.0 MZR Petrol
- 1998cc in-line 4-cylinder, 16-valve, DOHC, front-mounted, developing 150ps (110kW) at 6200rpm and 191Nm at 4500rpm.
 - CO₂ emissions of 159g/km (EC Stage V).
 - Battery – 46B24L.
 - Alternator – 12V-110A.
 - DISI (Direct Injection Spark Ignition).
 - i-stop.
 - Variable Valve Timing (VVT).
 - Variable Induction System.
- 1.6 MZ-CD Diesel*
- 1560cc in-line 4-cylinder, 8-valve, SOHC, front-mounted, developing 115ps (85kW) at 3600rpm and 270Nm at 1750rpm.
 - CO₂ emissions of 138g/km (EC Stage V).
 - Battery – 75D23L.
 - Alternator – 12V-150A.
 - Common-rail fuel injection.
 - Diesel Particulate Filter (DPF).

Transmission:

- 6-speed manual – Giving precise, positive shift feel to provide a feeling of unity between driver and vehicle.

Body:

- Self-supporting rigid and torsion-resistant all-steel body with defined crush zones for the front and rear sections, stable passenger safety cell with side impact reinforcement in the doors.
- Mazda Advanced Impact Distribution and Absorption System (MAIDAS) designed to secure the critical interior space in the event of an accident.
- Supplementary Restraint System (SRS) comprising central control unit and crash sensors, seatbelt pretensioners, load-limiters and airbag system.

Chassis and Suspension:

- Front: Independent suspension with MacPherson struts and coil springs.
- Rear: E-type multi-link suspension, independent, with angled dampers and low-mounted springs to maximise space for third-row seats and / or load compartment.

Brake System:

- Hydraulic, diagonally divided dual-circuit system with power brake unit.
- Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD) and Emergency Brake Assistance (EBA).
- Front: 300mm ventilated disc brakes.
- Rear: 302mm disc brakes.

Warranty Plus – 3-Year Cover

Every Mazda is designed and built to the highest standards of performance, comfort and reliability. For your further reassurance, Mazda also provides a full 3-year / 60,000-mile warranty cover, including Mazda European Assistance, 3-year paintwork warranty and a 12-year anti-perforation warranty. There is no mileage limit during the first year of the warranty.

Mazda Momentum – New Vehicle Extended Warranty

At any time during the manufacturer's warranty period, you may purchase a Mazda Momentum extended warranty package. Three options are available. Your Mazda dealer will be pleased to provide you with details.

Free Mazda Accident Aftercare

Mazda Accident Aftercare is designed to assist you following a road traffic accident. Should you ever be involved in an accident or need to make an insurance claim, 'Mazda First' will liaise directly with your insurer to process the claim and ensure that your vehicle is repaired at a Mazda approved bodyshop using only genuine Mazda parts, in addition to other benefits such as providing you with a free courtesy car and maintaining your Mazda warranties.

Mazda Contract Hire*

As a Mazda corporate customer, you'll find that Mazda vehicles are designed to fulfil the diverse needs of a modern company. Our corporate service offers attractive purchase prices, low running costs and market-driven residual values, resulting in extremely competitive ownership costs. To find out more about the benefits of Mazda Contract Hire, please speak to your Mazda dealer or phone 0844 556 8439.

Digital Service Record

The Mazda Digital Service Record (DSR) system provides increased security against counterfeit service documents and odometer tampering, and makes it easy to keep the service history up-to-date. Stored on a central database, the DSR replaces the traditional paper service book and ensures a secure, accurate and permanent service history for the life of the vehicle.

Your Mazda dealer:

Mazda Motors UK Limited reserves the right to introduce changes in specification and equipment due to its ongoing product development. Colour and trim samples shown in this brochure may vary from the actual colours because of the limitations of the printing process. It is recommended that you consult your Mazda dealer when referring to these.
